Work Experience

Software Developer (Founder, Virall| 05/2024 – Present)

- Founded and lead Virall, a startup focused on delivering scalable and innovative web solutions.
- Built over 5 custom web solutions tailored to enhance business operations and customer engagement.
- Identified and solved 4+ critical business problems through innovative technological approaches.
- Helped businesses achieve a 30% growth in profit by optimizing digital processes and improving user experiences.

Frontend Developer Intern (Innovations Creed | 01/2023 – 10/2023)

- Designed user-friendly interfaces using React and CSS.
- Improved performance by 20% through debugging and UI optimization.
- Documented and maintained codebases following best practices.

Education

- **B.Sc. Computer Science:** Global Wealth University (2020 – 2024)
- **Backend Engineering:** Alt-School Africa (2024 – Present)

Projects

1. **Virall tech solutions :** https://virall.netlify.app/
   Created a responsive portfolio using React, Next.js, and Tailwind CSS.
2. **Artprimes :** https://artprimes.vercel.app/
   Developed a job-matching app using React, Express, and Firebase.
3. **Zorra sales :** https://zorratheseller.vercel.app/
   Built a cart system with React Context API.
4. **TheEvent :** https://zorratheseller.vercel.app/
   Demonstrated wallet connection using React and WAGMI Library.

Volunteering

RCCG Tech Volunteers (09/2024 – Present)

- Organized workshops on JavaScript and full-stack development.
- Delivered sessions on React and Node.js integration.

Interests

Tech, Music, Art Works, Travel
